

Bettina Atala

saison 1 épisode 2

3 & 4 NOV 08 . 20:30 . STUK SOETEZAAL

Where is the cameraman?

At which point the shot will change?

Is this particular scene shot in the right chronological order?

How many takes were required to obtain the best one?

These are the questions that the characters in the movie **saison 1 épisode 2** openly ask themselves and which are the main subject of the dialogues. The filmmaker and a few actors will be present during the screening. Armed with a remote control and a microphone, they will stop the movie at intervals to tell anecdotes about the shoot, they will rewind the movie to highlight hidden details, and they might even fast forward the boring bits.
